

## **Daron and Angela**

## Dear Birth Family,

Our names are Angela and Daron. Thank you for taking the time to read our story. Right now you are trying to find the best fitting adoptive parents for your child. I'm sure this is a very difficult and emotional decision for you. Putting your child's needs first is very admirable. We will try to give you a good idea of who we are and hope that you consider us in your decision. If it is any comfort please know that your child will be raised in a caring, loving and open environment.

We have been married for nine years. We always knew that we wanted children but unfortunately we were unable to accomplish this. After years of fertility issues we have decided that adoption was the right choice for us. We are very excited about this opportunity as are our families. We know that we can give a child a wonderful life filled with love, family and happiness.

We met because we had similar interest in music and attended many of the same shows of local music artist. We also had mutual friends who we met through. After a couple of years of knowing each other we started dating and were married three years later. We are now on our ninth anniversary and are very happy but are missing a child to make our family complete.

We both enjoy traveling, hiking, picnics and spending time with family and friends. We also have separate interests such as Angela enjoys baking, shopping and yoga while Daron enjoys ice hockey games, home improvement projects and grilling.

Angela has a master's degree in Physical Therapy and employed at a local hospital as a therapist. She currently works part time and has a very flexible schedule. She will continue to do this in order to be a mom that is always there.

*Angela baking her famous cookies*

*Trimming the Christmas tree*

Daron graduated from a local technical trade school. He currently owns and operates a specialty trade construction business. He is very ambitious and successful with his business operation. His hours are flexible and he has a schedule that is conducive to raising a child.

*Daron having fun at work.*

*Daron goofing off in NYC.*

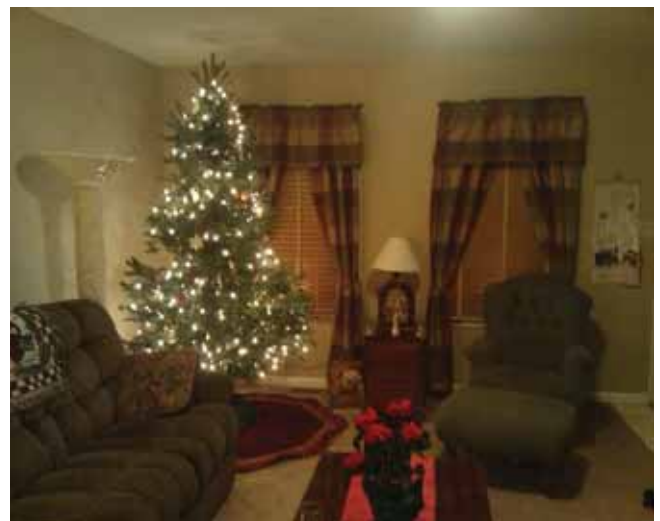

*Daron and Angela at Stonehenge in England*

The third and final family member in our home would be Abbey, our little gray cat, as we like to call her. Abbey loves people of all ages. We sometimes joke that she actually thinks she is human. She has been a wonderful part of our family for the past seven years.

We have lived in a townhouse for the past nine years and have made it into a cozy place. We are located in a suburb area with many local schools, playgrounds and shopping areas. Our neighborhood has many friendly families with children. It is a great area to grow up in.

her husband  
enjoying pumpkin pie  
with grandma  
and the family.*

*Us with Daron's brother and family in Florida.*

*Daron's sister and her husband.*

*Thanks again for taking some time to get to know a little bit about us. We understand that this is overwhelming and difficult. By considering us as adoptive parents your child will grow in a loving environment and will have great opportunities. We look forward to meeting you and getting to know you better. Should you wish to receive pictures and updates over the years we will be glad to send them. Thank you for having the compassion and courage to choose life for your baby. He or she will grow up being aware of your act of love.*
